

MA 330 ASSIGNMENT # 5

Answers to problems may be handwritten.

- (1) Write a 2-3 paragraph reflection on this course so far. You might consider some of the following questions as prompts to start your reflection (though you aren't required to answer all of these). What has been easiest so far for you? What has been hardest? Why? What have you learned from this course, mathematically or personally? What was the most interesting to you? Is there anything so far that you feel you really don't "get"? Why?
