Animal Problem

1. Think of a number.

2. Multiply it by 6.

3. Add 10 to the result.

4. Divide by 2.

5. Add 7 to the result.

6. Divide by 3.

7. Subtract your original number from the result.

8. Convert the final result into a letter of the alphabet using the system 1=A, 2=B, etc.

9. Think of the name of a country that begins with that letter.

10. Think of the name of an animal that begins with the second letter of the country chosen.

11. Think of the color of that animal.
