Click “ILS questionnaire” and fill out and submit. The website will send you back an evaluation, which you should save, print, and bring to class on Thursday. You should place this in the “Learning Styles and Differentiated Instruction” section of your notebook. Return to the Index of Learning Styles website, click on “Descriptions of the learning styles”, and read this information. Based on your questionnaire results and the information about learning styles, what kind of a learner are you? Do you agree with the results? Why or why not? Write a few sentences in reaction.
