

Below are the last homework assignments for the semester.

In addition, you should be solving (almost) every problem on the course calendar. I would be delighted to answer questions about homework.

- Homework Y. §10.10 #40. (10 points) Due Monday, 19 April 2004.
- Homework Z. §9.2 #28. (10 points) Due Friday, 23 April 2004.

MA 114 does not have a uniform final exam. The final exam for these sections will be on Wednesday, 5 May 2004 10:30am-12:30pm in our regular classroom, Chemistry Physics, 320. The final exam will be cumulative, but with an emphasis on the material covered since the third exam. You will receive a fourth review sheet and students who have mastered the material and problems on the review sheets should do well on the final.

I will hold office hours on Monday afternoon, 3 May 2004, from 2-3 to answer questions that arise while you prepare for the final.

You should not have a time conflict with another exam. If you have three exams on Wednesday, or another activity, please see me.
