

Names:

	Graph A	Graph B	Graph C	Graph D
How many edges does this graph have?				
What is the order of the graph (number of vertices)?				
How many components does the graph have?				
Is the graph connected ?				
Is the graph simple ? (no loops or multiple edges)				
Is the graph a tree ? (no circuits)				
Find the degree of vertex A				
Find the degree of vertex B				
Find the degree of vertex E				

Graph A

Graph B

Graph C

Graph D

For Graphs A, C and D, can you find an Euler Circuit or Euler path? (label it on the graph if you find one.)
