

1. HOMEWORK 7

Find a partner in the class. Attend one of your partner's recitations (as before, you don't necessarily have to stay the whole time, but long enough to get a sense of what's going on). Arrange to talk to your partner after the recitation, and let them know of at least one thing you think they're doing well in their recitations, and at least one thing they could try to improve.

Write a summary of your partner's comments, and a few words of reflection – do you think they are consistent with your own ideas of your strengths and weaknesses? Due in class on **Monday November 18**.
