Policy (Spring 2016)

Sec. 5,6,7,8. Prerequisite: MA 114 or equivalent

1. Instructor Details:

Instructor	Dr. Francis Chung	
Office:	727 Patterson Office Tower	
Office Hrs.	Wed. 11-12, Fri. 12:30-2:30; or by Appt.	

2. Course Web page: www.ms.uky.edu/~fjch223/courses/Math213.html. See also the page run by the course coordinator, Dr. Avinash Sathaye, at www.ms.uky.edu/sohum/ma213.

3. Recitation;

Section	Time (TR) and Place	Instructor
5	8-8:50 CB 341	George Lytle
6	9-9:50 CB 339	George Lytle
7	10-10:50 CB 339	Shane Clark
8	11-11:50 CB 347	Shane Clark

4. Text: Calculus, Early Transcendentals, Second Edition, Jon Rogawski

Earlier editions may be acceptable.

We will cover Chapters 12-15 and the parts of chapters 16,17 with exact details to be decided, based on available time.

This is calculus of several variables including vector geometry, motion along a curve, higher dimensional derivatives, calculus for surfaces, multiple integrals, line integrals and vector field theory.

5. Homework: We shall use Web based homework called Mathclass. Detailed information is available at www.msc.uky.edu/sohum/ma213 The homework is an integral part of the course and it is essential that it is done on time. There is no way to make up homework once it expires. The homework is posted even before the class discussions start and you must try to finish it at the earliest opportunity. Computer and Network problems arising in the last few hours before the deadline will not create a valid excuse for missed homework.

Homework during an exam period will count as 10 points of the corresponding exam grade.

6. Attendance Quizzes: I typically give a very short quiz in class which also counts as a proof of attendance. Each quiz is worth 5 points, out of which 2 points are simply for submitting a properly signed paper and the remaining 3 points are for correct work.

The total grade contribution of these quizzes is 30 points (out of the total 500 points).

7. Midterm Exams: There will be **three midterm evening exams**:

at 5:00-7:00 pm on Mondays, Feb. 8, Mar. 7 and Apr. 11.

Note that these are longer than a typical class and given at night. We will follow University regulations governing such exams.

Each evening exam (except final) will award a class holiday for one class period. The dates for these will be announced later.

8. Final Exam:

Also, there is a common final exam.

Final Exam: Thursday May. 5 6:00 to 8:00 PM

General Exam policy: Calculators are permitted, however, any device capable of electronic communication such as a cell phone or computer must be turned off and put away out of sight during all examinations.

9. **Recitation:** Besides the three class periods, you have two recitation periods each week. Your recitation instructor will announce the recitation policy. The instructor will award a grade worth 50 points (out of the total 500 points).

The recitation grade will be split as 30 points for three written projects (one at the end of each exam period) and 20 points for attendance and participation in the recitations. The recitation instructors will provide further details of this.

10. **Attendance:** I expect you to attend all classes. If you have a valid excuse, you should make a point of contacting me about it as soon as possible and you should make up all missed work.

I would also like to emphasize that you should try to participate actively in the class, even though it is a large class. If you are shy about asking questions in class, send me email or come to my office. I will try to answer all questions, directly to you or to the whole class, as needed.

11. Grade:

- 100 points per mid semester exam: (90 for the exam and 10 based on WHS performance during the exam period).
 - 120 points for the final exam (110 for the exam and 10 based on WHS performance during the exam period).
- 30 points for attendance based on attendance guizzes.
- 50 points based on recitation performance as evaluated by your recitation instructor.
- The net grade will be based on a total of (300+120+30+50)=500 points. Thus the final grade will use the scale:

500 A 450 B 400 C 350 D 300 E

Course Policy on Academic Accommodations due to disability:

If you have a documented disability that requires academic accommodations, please see me as soon as possible during scheduled office hours. In order to receive accommodations in this course, you must provide me with a Letter of Accommodation from the Disability Resource Center. Check the site: http://www.uky.edu/StudentAffairs/DisabilityResourceCenter for further information.

Course Policy on Academic integrity:

Students may work together on homework, but should not submit solutions to WHS until they understand how to obtain the answer. All other course work on quizzes and exams must be the student's own work. Useful information about students' rights and responsibilities can be found at the following website: http://www.uky.edu/Ombud . You are advised to consult it as needed.
