

MA 601
Homework #8
Due Monday, October 31

Read the four articles "Calculus at Crisis I-IV" whose links are on the course webpage <http://www.ms.uky.edu/~lee/ma601fa16/ma601fa16.html>. Then think about some specific examples of issues raised in these articles have arisen in the classes that you're teaching (or perhaps taken in high school and college).
