

Assignment #10

1. Use POV-Ray to produce an image of the 24-cell. Try to find some interesting directions of projection. You may also wish to include some of the triangular faces to help visualize this object. As usual, email me the source file.
2. Read Chapter 6 of *Beyond the Third Dimension*. Make careful note of items and details that you don't understand yet.
3. Continue working on your projects.
