*Attendance:* Class attendance is expected of all students. You are responsible for all lecture material and announcements made in class.

We will take attendance regularly during lecture with sign in sheets. The attendance grade will be awarded in proportion to the number of times you attend. Each student will be allowed two unexcused absences.

Students who have conflicts with scheduled exams or quizzes must notify me as soon as possible and no less than two weeks before the conflict. Students with a scheduled absence (travel or authorized university excuse) must notify me before the absence if they wish it to count as an excused absence for the attendance grade. These students can complete web homework while traveling and turn in written assignments before they leave.

Students who miss an assignment for illness or other urgent, unscheduled event and wish to make arrangements for an assignment or WeBWorK should speak with me to discuss their situation within one week (and as soon as possible) and provide written documentation.

Late assignments and exams without an excused absence may result in the loss of points equivalent to one letter grade.

*Grading Concerns:* All requests for re-grades of tests and written assignments should be submitted on the day the assignment is returned in class. Please provide a written explanation of your question on the paper and return the paper to me.

*Academic Accommodations:* If you have a documented disability that requires academic accommodations, please see me as soon as possible. In order to receive accommodations in this course, you must provide me with a Letter of Accommodation from the Disability Resources Center (Room 2, Alumni Gym, 257-2754, [jkarnes@uky.edu](mailto:jkarnes@uky.edu)) for coordination of campus disability services available to students with disabilities. We can then collaborate on the best solution.

*Academic Integrity:* All students are expected to follow the academic integrity standards as explained in the University Senate Rules.

*Classroom Demeanor:* Turn off all cell phones or other electronic devices prior to entering the classroom. An attitude of respect for and civility towards other students in the class and the instructor is expected at all times.

I strongly encourage you to make use of office hours, the Mathskeller, and The Study. There are many people who want to help you succeed in this class but you need to let us know that that you want and need help!
