

Agenda for Faculty Meeting, 11 November 2025

Business:

Digital Access Initiative.

A federal law mandates that digital documents satisfy certain accessibility standards by 24 April 2026. The College requests that all Spring 2026 courses will be in compliance with the law at the beginning of the spring semester. This will require considerable work.

Trey Conatser, Director of CELT, will give a presentation on the topic, including available tools, and be available to answer questions.
