The Role of an Actuary in a Socially Responsible Insurance Company and the State of the Insurance Market

Kathryn Enochs Herzog ACAS, MAAA
Chief Actuary
The Redwoods Group

I will illustrate how a socially conscious insurance company can be a powerful force for positive social change while remaining competitive in a responsible and sustainable fashion. The actuary has a unique role in such a company and I will discuss a ways that an actuary can contribute to the success of the mission.

I will also give examples of opportunities for actuaries, and discuss the current state of the insurance market and why the crisis at AIG does not spell doom for the industry.
