

MA113 Calculus 1
Sections 025, 026, 027, 028, 029, and 030
Fall 2015

Instructor P. D. Hislop
Office: 753 POT
 257-5637 or peter.hislop@uky.edu

Teaching Assistants: **Section 025:** Ms. Darleen Perez-Lavin
 Office: 718 POT 257-6806; darleen.perezlavin@uky.edu

Section 026: Mr. Karthik Chandrasekhar
 Office: 718 PO7 257-6806; ak.c@uky.edu

Sections 027 and 028: Mr. Gayan Maduranga
 Office: 706 PO7 257-6805; kgamma225@g.uky.edu

Sections 029 and 030: Ms. Kalila Sawyer
 Office: 722 PO7 257-6807; Kalila.sawyer@uky.edu

Text: J. Rogawski: *Calculus, Early Transcendentals, second edition*,
 W. H. Freeman and Co.

Class Meetings: MWF 02:00–02:50 PM CP 153

Recitation: Section 025: TR 08:00-09:45 FPAT 265
 Section 026: TR 08:00-09:15 CB 241
 Section 027: TR 03:30-04:45 CB 333
 Section 028: TR 12:30-01:45 CB 337
 Section 029: TR 02:00-03:15 CB 337
 Section 030: TR 03:30-04:45 CB 337

Office Hours: Dr. Hislop: M 3-4 and F 3-4 in POT 753; and by appointment
 Ms. Perez-Lavin: TR 9:30-10:30 in POT 718, F 2-3 in the Mathskeller
 Mr. Chandrasekhar: R 12:30-1:30 in POT 718, T 12:30-1:30 in the Mathskeller
 Mr. Maduranga: MR 2:00-3:00 in POT 706, T 2:00-3:00 in the Mathskeller
 Ms. Sawyer: T 10:30-12:30 in POT 722, R 11:30-12:30 in the Mathskeller

Grading Policy

The Grading Policy is exactly as given on the Main Course webpage:
<http://www.ms.uky.edu/~ma113/f.15/>.

There are 3 hour exams in the evening from 5:00–7:00 PM on Tuesdays: 27 September, 20 October, and 17 November. The final Exam is on Tuesday, 15 December 2015, 6:00–8:00 PM. The hour exams will be in room 107 BS. The room for the final will be announced later on the main course syllabus.

The Grading Policy is exactly as given on the Main Course Syllabus. The total course score is 500. Each of the four exams is worth 100 points. The remaining 100 points will be determined as follows: Take the sum of 100 for Web Work homework, 60 points for the written assignments (6 assignments at 10 points each), and 40 points for class attendance (explained below) to obtain a maximum of 200 then divide by two to get 100 points. The student's total out of 500 will be converted to the standard letter grade: A: 90-100, B, 80-89, C, 70-79, D 60-69, and E below 60. You are guaranteed to receive the appropriate letter grade according to this scale or higher.

Lecture attendance and clickers

Each student must have a Turning Technologies clicker. These will be used for attendance and for responses to questions during the lectures. The lecture attendance grade is based on these responses.

MA193

MA 193. This is an optional one credit hour course graded pass/fail. You must be enrolled in the same 193 section as your 113 section. To pass MA 193 you must pass MA 113 and have had no more than two unexcused absences in recitation. **Recitation attendance for MA 193 is required (with no more than two unexcused absences). If you fail MA113 or have more than 2 unexcused absences from recitation, you will fail MA193.**

Course Content

The main topics of Calculus I include differentiation and integration. We will begin with a review of functions. It is essential that each student understand what a function is and also know about trigonometric functions, the exponential function, and the logarithm. We'll discuss limits, tangent lines, and continuity. We will then generalize from the notion of slope to the derivative. Various applications of the derivative will be given coming from physics and economics. We will then discuss the anti-derivative (the indefinite integral).

Web Work, non-credit quizzes, and the six written assignments

It is essential that each student work as many problems as possible. There is a list of suggested problems on the syllabus. Work sheets and these problems

will be discussed in the recitations. **The students must bring the worksheet to the recitation.** Also, quizzes will be given in the recitation as posted on the main course calendar. The quiz solutions will be discussed and posted on the web site, but not graded.

There will be six written, graded assignments that each student is to complete and turn in in class on the days marked on the main calendar.

Office Hours and the Mathskeller

The instructor and the two TAs will hold their office hours in their offices and also in the Mathskeller, located in the basement of the Classroom Building. This is a good place to go for help anytime. The schedule of tutors is posted there. Office hours are listed at the top of the first page. The Study also provides tutors for MA 113.

Course Calendar

The main course calendar for MA 113 Fall 2015 is on the main course web page. This is a day-to-day calendar for the entire semester. Please refer to this often as the dates of all due material, Written Assignments, Web Work, Exams, etc. are posted there.

Other Rules

1. Calculators are allowed for the exams and quizzes as specified on the Main Course Syllabus.
2. You are expected to take the exams as scheduled unless you have an excused absence. You must discuss this with the instructor before the exam, except in the case of a medical emergency.
3. All exams are closed book: no papers or books are allowed.
4. *Cheating in any form will not be tolerated.*
