[<jack.schmidt@uky.edu>](mailto:jack.schmidt@uky.edu)

Office: POT963, (859) 257-1429

**Schedule and grading:** We meet Tuesday and Thursdays from 12:30pm-1:50pm in CP155. Attendance is mandatory and contributes 4% to your final grade. Homework is due about twice per week and contributes 16% of your final grade. There are exams on Wednesdays from 5:00pm to 7:00pm on September 22, October 20, and November 17. Each exam contributes 20% to your final grade. There is a final exam on Wednesday December 15 from 8:30pm to 10:30pm. The final exam contributes 20% to your final grade.

Dr. Schmidt holds office hours in the [Mathskeller](#) (CB63) Mondays, Wednesdays, and Fridays from 9:00am-10:00am. Rubing Chen, Robert Milburn, and Yaowei Zhang are also dedicated to answering your questions in the mathskeller (which is open 9am-5pm, Monday through Friday). During the late afternoon and evenings, [The Study](#) is a good place to work.

**Policies:** Behave professionally in class, and address your peers in the classroom courteously. If you need to make an emergency call or text, please quietly excuse yourself and handle the emergency outside of the classroom. Please inform your instructor before September 15th of any special accommodations needed for religious reasons, and as soon as possible for disability or extra-curricular reasons.

Please inform your instructor in advance of any absences. Absences not reported within one week are not excused. Excused absences will not lower your grade, but unexcused absences result in no credit for that day's attendance and recitation points. Excused absences may be subject to verification according to university policy. Excused absences do not excuse one for homework, unless the excused period covers the entire period from the first time the material is covered until the due date (this is typically 5-7 days). Homework cannot be turned in late for any reason, and must be turned in through the web homework system at [mathclass.org](http://mathclass.org).

A full list of policies is available on the main syllabus at <http://www.ms.uky.edu/~ma123/>

**Collaboration:** Collaboration is encouraged. Each section will determine whether in class activities are group-work or individual. Any work turned in for grading will be individually assessed and should represent an individual's work, but it is assumed that that work was done in a collegial atmosphere. Plagiarism is a serious academic offense. Your ideas are valuable; please present your own ideas after having listened to the ideas of your colleagues. Ideas are meant to be shared, understood, and reshaped, not simply copied. Cheating on quizzes or tests will be handled in accordance with university policy, and can result in a failing grade for the entire course and even more serious consequences.
