

MA 601
Homework #1
Due Monday, September 12

1. Since Monday, September 5, is Labor Day, we will not have class this week. For this week, please visit the class of another teaching assistant. Hand in or email me a written summary of your visit. Give the name of the class that you visited, the name of the TA, and the date and time of the visit. Identify two aspects of the class you observed that went particularly well. The summary should be one page in length.
2. Browse some of the blogs—see the links on the course website. Make a note of something interesting that you read that you can mention in class.
3. Read the following sections.
 - 3.1 Breaking the Ice
 - 3.2 Math Anxiety
 - 3.3 Inductive vs. Deductive Method
 - 3.4 Who is My Audience?
