

MA 601
Homework #7
Due Monday, October 23

1. Go to the website for the Center for the Enhancement of Learning and Teaching (CELT), <http://www.uky.edu/celt>, and explore the information, suggestions, and ideas under “Instructional Resources.” Be prepared to comment on a few ideas that you might want to try in your classroom. Is there anything that you read here that you wish you had known on the first day of class? Also, if you notice some suggestions that appear to be less suitable for math classes, it would be interesting to hear about these as well.
2. Take a look at this offering from the Graduate School: <http://gradschool.uky.edu/preparing-future-faculty>. A few of our graduate students have enrolled in this over the years.
