

# MA 137 Project Submission Instructions

You must submit a copy of your project through Blackboard. This needs to be done by **6 PM on Friday, April 25th**. You will not receive credit for your project if you do not submit it through Blackboard. This also means that *each* member of a group will submit their own copy.

Instructions to do this:

1. Save your project as a PDF named

`UKCoreProject-LastNameFirstName`

(For example, my file would be named `UKCoreProject-JohnsonBen.PDF`.)

2. Go to Blackboard (<https://elearning.uky.edu>) and log in using your LinkBlue ID and password. Click on MA 137 in your Course List.
3. On the left side of the screen click on **Course Content**.
4. Click on **Project** that appears at the top. Go to Step 2: Assignment Submission.
5. Click **Browse My Computer**, locate and select the project file on your computer.
6. Click the **Submit** button to upload the file and submit the project.

You can watch a video about this process at
