**debate**

**Colin Adams**

**and**

**Thomas Garrity**

“Colin Adams and Thomas Garrity settle once and for all the burning question that has plagued humankind from time immemorial: “Which is the better number, e or pi?” In what could be the most important debate of the millennium, Williams College Professors Adams and Garrity use any means within their powers, legal or otherwise, to prove their point. Moderated by Edward Burger, our debaters challenge orthodoxy, brazenly flaunt convention and behave rather badly in their attempts to convince the audience of the absolutely ridiculous nature of their adversary’s arguments. This event may have the historical significance of the Edict of Nantes, the Yalta conference, or the Kennedy-Nixon debates. Or perhaps not. But just in case, you don’t want to miss it.” — 40 min
