

UNIVERSITY OF KENTUCKY

Math Movie of the Month

presents:

**Fractals:
Hunting
the Hidden Dimension**

**A NOVA
documentary
about
the new geometry**

“What do movie special effects, the stock market, and heart attacks have in common? They are connected by a revolutionary new branch of math called fractals, which changed the way we see the world and opened up a vast new territory to scientific analysis and understanding. Meet the mathematicians who developed fractals from a mere curiosity to an approach that touches nearly every branch of understanding, including the fate of our universe.” – 56 min

**Friday December 2nd, 2011
7:30pm in Classroom Building 118**
