

Ma 330 project I (Fall 18) Information

The first project requires the students to organize into groups of 3 or less students and select a topic.

The chosen topic and brief outline and intended scope should be reported to sathaye@uky.edu

You may also meet with me in person and seek advice.

If different groups end up choosing identical topics, then we will discuss changing the projects.

The deadline for your proposals is 9/24/18.

The project is expected to be between 15-20 double spaced pages.

It must be typed and properly formatted, complete with title, abstract, introduction, narrative, conclusions and references.

Using Web resources is permitted, but they must be cited. Also, it is necessary to search some of the references from the web pages directly. You should make an effort to verify if the opinions expressed in your source are justified. Be sure to include a discussion of why the source is trustworthy.
